Looking as good as the cocktails, Munna's Bar and Counter Stools are cool like ice. Blending craftsmanship and sensuous lines, they are a treat to look at and feel, from the back to the seats. Served with a twist.

Set the scene

Folding screens can set the scene.

Their narrative feel is seductive, provoking imagination. Their materiality, color and forms purposefully embody Munna's quintessence: the closeness of contemporary and vintage, the architectural and the intuitive.

Golden Eye

This must be the place

A place to live life, and to escape from it. Sleeping and dreaming. For passion, for love, for family.

Beds can be quiet and graceful, as sleep should be. Yet, beds can also be an expression of personality, complement one's charisma. And become the statement in a room.

Munna's beds are the quintessence of eclectic harmony. An idiosyncratic aesthetic that mixes and matches the historic and contemporary.

The old and the new. Connecting the dots with a soulful approach to design, curated by an alchemy of color, emotions and handcraft.

Roy Armchair

Camille Armchair

The Roy Armchair has an impactful silhouette. The oversized softly curved arms and back work in either formal and more casual settings, the Roy has relaxed comfort in mind. It's grand, curvy and charismatic.

08

Roy Armchair

Smooth Operator

Expanding the Roy series, this new armchair creates an instant favorite, with its curvy, compact and soft concept. The Roy Armchair is suitable for environments that inspire extreme relaxation and one-piece seat particularly ergonomic and comfortable.

09

Its expressive character comes from the pleated details enhancing the curvy shapes of the low seat and back. A pleasing disposition for relaxed living spaces.

Hello, Camille

The Camille Armchair explores a language of texture and color in a signature curvaceous form. Signature pleats, curvy shape and a generous low seat, the Camille is a must for timeless spaces.

06

Camille Armchair

07

The backrest is an ode to the silhouette of the classic feminine dresses of the middle decades of the 20th century. The proportion and balance of the seat and legs is full of intent.

12

Portrait of Grace

The Grace Chair is for the aesthetes. Truly, a design entwined with its name. Pure Grace.

13

Grace Chair

True Classic

Cool and compelling, the Coleman series has expanded and is in great company. Along with the most wanted Coleman Chair, now the armchair and bar stool complete this series with its distinct look.

The Coleman has a definite retro feel with contemporary lines. Functional and exuding savoir faire, the Coleman features exposed legs supporting a wing-shaped padded backrest, and platformed seat elevated from the structure. Cool and fresh, it makes its presence felt effortlessly, without making too much of a fuss about it.

Sideboards

Bosque | Sideboard

The Bosque pays homage to lavish forest canopies, hosting trees that bask in the sun whilst sheltering the growing saplings beneath. The oak branches of the legs have been cast from a brass mold, and are surmounted by a sideboard comprising a pair of large drawers, the larger composed of two smaller cutlery drawers, between doors containing adjustable shelves.

Bar Cabinets

*Evocative and poetic, functional and versatile,
Ginger & Jagger's creations have an integral harmony
between craft and materials.*

Walnut | Bar Cabinet

The woodwork of the Walnut Bar Cabinet, made with inlay marquetry technique, evokes the first rays of sunshine passing through naked tree branches. The unique door handles are made from tree branches in brass casting mold.

Consoles

Fig Tree | Console

Primitive | Console

The structure is molded in brass casting from magnolia tree branches, providing function to its natural form.

The softness of the marble and the ruggedness of the textured brass are a testament of Nature's paradox: complex, yet simple.

Coffee & Side Tables

The commanding presence of Nature is encapsulated and made eternal by the craft, the materials and textures of these designs.

Rock | Brass Side Table

Encapsulating the commanding presence of Nature, the Rock Side Table is a bold design statement. Made from a single block of marble, the Rock is a soothing yet unmistakable presence. The likeness of its faceted geometry can be found in Nature in raw form.

Mirrors

Ginger & Jagger's mirrors have a sculptural scale, elevating their presence in a living space, becoming the ultimate artisanal pieces.

Vine | Singular Mirror

Framing the beholder in a crown of vine branches, the Vine mirror is the ultimate artisanal piece. The four arches that form the frame are handmade from vine branches, molded in brass casting, found in the Douro Valley, home of the unique Port Wine.

Solstice | Mirror

The Solstice Mirror captures an ethereal moment of alignment, a fraction of time when the Sun shines the brightest, and the longest. The stone is like the Earth, in an instance of stillness, embracing the mirror and the metal details, as warm rays of light.

Evocative, detached from unnecessary complexity, the Solstice is in essence a celebration all the everlasting elements that surround us - time, matter, light - and of oneself, reflected.

Mirrors

Core | Mirrors

A tree's core is a testament of the vital force of Nature, a realm where nothing is lost, all is merely transformed. The arches of this mirror are hand hammered in brass, shaped around a tree trunk. The mirror here represents time as a flat quasi-elliptical shape, therefore everlasting.
